Reader Response in Secondary and College Classrooms Nicholas J. Karolides 2013-04-15 This text, based on Louise M. Rosenblatt's transactional model of literature, focuses on the application of transactional reader-response theory in the classroom. It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice. This is not a "What should I do on Monday?" cookbook, but an expression of the practice of theory in college and secondary school classrooms. The chapters portray a spectrum of strategies--including biopoems, expressive and imaginative writing, journal writing, readers' theater, role playing, and unsent letters--using as examples individual works from several genres. Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader-centered classroom, the authors provide stepping stones to develop readiness and confidence, suggestions, and insights to ease the transition to the transactional model of teaching and learning. Pedagogical features: * An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters it contains. * Invitations elicit engagement of readers with concepts, attitudes, or strategies presented in the chapters; they invite readers, as individuals or members of a small group, to consider ideas or to practice a strategy, among other activities, in order to enhance understandings. * A glossary defines key concepts and strategies discussed in the text. * A bibliography provides an extensive list of resources--books and journal articles--both theoretical and applied. New in the second edition: * Six new chapters--three deal with the roles of film-as-literature in the English classroom, and three with enhancing multicultural understandings. * Updates and revisions to several chapters that appeared in the first edition. * Invitations, new in this edition, have been added to focus and expand readers' thinking.

Envy Bob Sorge 2003-01-31 Envy might well be termed the silent sin. Because while all of us envy others to some extent, few of us acknowledge our problem out loud, let alone try to overcome it and move forward. Bob Sorge draws upon his own pastoral experience--plus the admitted burden of his own envy--to show why and how it can adversely affect the ministry of a church and even prevent revival in people's lives. Sorge reveals why comparison of our ministry and spiritual gifts to that of our fellow believers is to be avoided at all costs so that we do not hamstring God's plan for our growth and the accomplishment of His purposes. This is a must-read for leaders of all churches, great and small--and anyone who wants the peace that comes with a life free of envy.

Our resource is easily customizable, allowing educators to pick and choose elements to meet their needs. Focus on vocabulary comprehension by matching words from the text to their definitions. Test student understanding of the play by asking students to fill in the dialog with the missing words from the scene. Expand critical thinking skills with short-answer opinion questions. Supplement an existing unit with in-depth writing tasks, such as evaluating Reverend Hale's waning confidence in witchcraft that takes place throughout the play. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: The Crucible is the award-winning play written by Arthur Miller about the Salem witch trials of 1692. One night in Salem Massachusetts, a group of girls are caught dancing in the woods by Reverend Parris. His own daughter falls into a coma soon after, and the town is ablaze with talks of witchcraft.

The Reverend sends for Reverend Hale to examine the girl for witchcraft. Hale concludes that the town of Salem is in fact engulfed in witchcraft as one by one the girls accuse other townspeople of communing with the devil. A trial ensues causing those accused to either deny these allegations, or confess, thus accusing someone else. This cycle finally culminates in the death of several innocent townsfolk. The Crucible is a historical dramatization of true events that show reputation is more important than admitting ignorance.
