Relanguaging Language from a South African Township School Lara-Stephanie Krause-Alzaidi 2021-12-20 Using data from a long-term

ethnographic study of English language classrooms in a South African township, this book highlights linguistic expertise in a setting where it is not usually expected or sought. Rather than being 'peripheral and unskilled', South African township teachers and learners emerge as skilled (re)languagers central to the workings of South African education, and to our understanding of how language classrooms work. This book foregrounds the heterogeneity, flexibility and creativity of day-to-day language practices that African urban spaces are known for, and conceptualises language teaching not as a progression from one fixed language to another, but as a circular sorting process between linguistic heterogeneity (languaging) and homogeneity (a standard language). *The 900 Most Frequently Used Zulu Verbs* Bheki Ndlovu 2024-03-12 This book is a comprehensive collection of the most frequently used Zulu verbs, sorted by order of frequency. Each verb in the book is accompanied by an example
