**Remote Control** Caetlin Benson-Allott 2015-01-29 Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. While we all use remote controls, we understand little about their history or their impact on our daily lives. Caetlin Benson-Allott looks back on the remote control's material and cultural history to explain how such an innocuous media accessory has changed the way we occupy our houses, interact with our families, and experience the world. From the first wired radio remotes of the 1920s to infrared universal remotes, from the homemade TV controllers to the Apple Remote, remote controls shape our media devices and how we live with them. Object Lessons is published in partnership with an essay series in *The Atlantic*.

**Promotion and Marketing for Broadcasting and Cable** Susan Tyler Eastman 1999 Promotion and marketing are key to communicating the attractiveness of media goods and services to the public in a free society. *Promotion and Marketing for Broadcasting, Cable and the Web*, Fourth Edition explores the scope and goals of media promotion from the perspective of radio, network and local television, and cable and public broadcasting. The third edition of this highly-regarded textbook was updated to encompass the immense structural, technological, and economic changes in the industry since the early 1990s. The role of the World Wide Web and of global and international promotion and marketing were introduced to bring the most current theory and practice to students and media professionals. The fourth edition brings the ever-evolving mission of the web into even greater focus with a new chapter on internet commerce and competition, and the widespread use of the internet as an advertising medium. Other topics covered in this book include: goals of promotion; research in promotion; on-air, print, and web message design; radio promotion, TV network and station promotion, and news campaigns; noncommercial radio and TV promotion; cable marketing and promotion; research and budgeting for promotion; and syndicated program marketing. *Promotion and Marketing for Broadcasting, Cable and the Web* has been endorsed by Promax, the national association for marketing executives in electronic media. Promax has provided a companion video for classroom use, containing examples of the many ways in which the media promote themselves.
