**Teaching English, How To.....:** Raymond Stopper 2004-07-19

Teaching English, How To . . . emphasizes three fundamental teaching techniques: directing reading assignments, modeling skills and using students questions to motivate learning and discussion. Three special features are daily ten-minute writing sessions to improve style and correctness, preparing students for the SAT 20-minute essay and a problem-centered grammar program designed to be applied to writing. This book contains specific recommendations for teaching almost every aspect of secondary English.

*Middle School Life Science* Judy Capra 1999-08-23 Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.

*Cost Accounting* Horace R. Brock 1998-03 Cost Accounting provides comprehensive coverage of cost accounting principles and techniques in short learning segments that make it easier for students to learn and understand the material. In addition to a clear, concise writing style,

carefully planned organization, and numerous illustrations, this new edition now offers an even more attractive design that enhances learning while maintaining student interest. A spreadsheet applications disk can be packaged with the text.

**Four Portraits, One Jesus Workbook** Mark L. Strauss 2020-03-24 This workbook accompanies Mark L. Strauss's Four Portraits, One Jesus. Following the textbook's structure, it offers readings from the Gospels, activities, and exercises designed to support the students' learning experience and enhance their comprehension of what can be known from the Gospels about the central defining subject of Christianity, Jesus of Nazareth. Four Portraits, One Jesus is a thorough yet accessible

introduction to the four biblical Gospels and their subject, the life and person of Jesus. Like different artists rendering the same subject using different styles and points of view, the Gospels paint four highly distinctive portraits of the same remarkable Jesus. With clarity and insight, Mark Strauss illuminates these four books addressing the following important areas: First he addresses the nature, origin, methods for study, and historical, religious, and cultural backgrounds of the Gospels. He then moves on to closer study of each narrative and its contribution to our understanding of Jesus, investigating things such as plot, characters, and theme. Finally, he pulls it all together with a detailed examination of what the Gospels teach about Jesus' ministry, message, death, and resurrection, with excursions into the quest for the historical Jesus and the historical reliability of the Gospels.
