Database Issues for Data Visualization Andreas Wierse
1996-12-11 This book constitutes the strictly refereed post-workshop proceedings of the Second International Workshop on Database Issues for Data Visualization, held in conjunction with the IEEE Visualization '95 conference in Atlanta, Georgia, in October 1995. Besides 13 revised full papers, the book presents three workshop subgroup reports summarizing the contents of the book as well as the state-of-the-art in the areas of scientific data modelling, supporting interactive database exploration, and visualization related metadata. The volume provides a snapshot of current research in the area and surveys the

problems that must be addressed now and in the future towards the integration of database management systems and data visualization.

Multimedia Database Systems V.S. Subrahmanian
1996 This book presents basic research establishing the theory and practice of multimedia database systems. Issues relating to the theory of such systems, query languages for multimedia databases, indexing structures, implementations, and industrial and government applications are addressed. The book will form a valuable text for advanced courses.

Animation and Scientific Visualization

Rae A. Earnshaw 1993 During the past decade the field of computer graphics has undergone a significant evolution as the development of new tools and techniques has made possible the production of an increasingly sophisticated and multifaceted array of visualizations—from animation to virtual environments. *Animation and Scientific Visualization: Tools and Applications* provides a comprehensive overview of the tools and techniques involved in these applications, with an emphasis on practical examples and experiences, and 32 pages of full-color plates. This book enables readers to see how animation and scientific visualization are invaluable aids to scientists and researchers.

High Performance Computing for Computer Graphics and

Visualisation Min Chen 1996 It is based on papers from an international workshop held in Swansea, UK, from 3-4 July 1995, which was the first workshop to bring together academic and industrial researchers and engineers involved in applying high performance computing technology to problems in computer graphics and visualisation.
